Greetings,

The American Sheep Industry Association (ASI) political action committee (RAMPAC) provides political support for those United States Senators and Representatives who support the sheep industry. Every two years, each Representative and one-third of the Senators run for election and we need more support for those that share our values and beliefs.

Historically we have relied on ASI annual meeting attendees to capitalize RAMPAC. However, today’s trying times require more support and engagement, and we need to ask our entire membership to consider supporting the cause. Your $25 - $100 contribution would be a great help to this fund.

We are working with our supporters in Congress this year to address livestock trucking with the need for workable rules to transport sheep. We have repeatedly asked Congress to support us with predator control tools. We completed a farm bill with important sheep programs because key folks insisted that they be included. Throw in the emerging threats of fake and/or lab grown “meat”, trade distortion, and the never-ending attacks on our ability to control predators and you have a full plate.

For all the aforementioned reasons, and many more, it is more important than ever for key Members of Congress to see America’s sheep industry as an important ally in their effort to represent our interests. Simply stated, as a comparatively small livestock organization we must be vocal and active on multiple fronts. Not the least of which is political engagement.

If you share our passion for the industry and want to help us utilize this important tool please take the time to fill out the attached form and return with your donation using the self-addressed envelope. Your contribution of $25 or more can make a tangible difference in our efforts. If you are charging the donation, please give the billing address in the payment information.

Thank you for the consideration and, remember, those that are not sitting at the table are on the menu.

Peter Orwick
Executive Director
